Algebra 1 - Q1.1_1.3 C

Name: ________________________

1.1 – Integers and Number Lines

1. I know how to read and use a number line

Plot the following numbers on a number line: $-7, -2, -1, 3, 5$.

2. I can find and describe the opposite of a number

Write the opposite of each number:

a. The opposite of 9 is ____

b. The opposite of -7 is ____

c. The opposite of 0 is ____

3. I can compare positive and negative numbers using >, <, and =

Fill in the blank with >, <, or =.

a. -5 ___ -3

b. 9 ___ -7

c. $|2|$ ___ $|-2|$

d. $|3|$ ___ $|-6|$

4. I can add and subtract integers on a number line

a. Draw a number line that shows $-5 + 4 = -1$.

b. Draw a number line that shows $-5 - 3 = -8$.

1.2 – Factors, Multiples, and Prime Factorization

5. I can find the factors and multiples of integers

a. List **all** factors of 24.

b. List the first 5 multiples of 3.

6. I can tell if a number is prime or composite

Is the number prime or composite? Circle one.

a. 11 is **prime | composite**

b. 51 is **prime | composite**

c. 49 is **prime | composite**

7. I can break numbers into prime factors using a factor tree

Complete the factor tree for 60 and write its prime factorization.

1.3 – GCF and Simplifying Fractions

8. I can find the GCF using factor trees Use factor trees to find the GCF of 96 and 60.

9. I can simplify fractions using the GCF Write the fraction $\frac{36}{54}$ in simplest form.

10. I can solve real-world problems using the GCF A teacher has 80 pencils and 24 erasers. She wants to make identical prize packs with no leftovers.

a. What is the greatest number of packs she can make?

b. How many pencils and erasers will be in each pack?
